

How we can manage a successful furniture project in socially distant times.

In these changed times, we want to assure you that we are doing all that we can to ensure the health and safety of our staff and customers, whilst remaining fully operational and able to fulfil your furniture projects.

If you have a query about a forthcoming project and would like to have one of our Furniture Consultants advise on the space, then we are ready and able to do with strict social distancing measures in place.

- For your initial meeting, one of our experience Furniture Consultants will arrange an online consultation, where they can listen to your initial ideas and help to finalise your objectives and vision for the project.
- An appointment will be made for a Project Manager to come and measure your space, adhering to strict social distancing protocols.
- When our design team have been briefed and your initial 2D and 3D designs produced, your Furniture Consultant will present concepts to you via an online consultation.
- Our experienced team of DBS checked drivers and DBS and CSCS accredited fitters will ensure that your furniture is delivered and fitted following strict minimal contact protocols, and our staff will:
 - wash their hands before and after each delivery
 - manage everything on site from offloading, assembly, and placement of furniture
 - wear disposable gloves whilst delivering and fitting
 - sign the paperwork and phone themselves to avoid customer contact
 - always maintain a 2-metre distance

Safety and quality of service is important to us now more than ever, so if you have any queries at all, please do get in touch with our team on 10869 320320 or sales@morleys.co.uk.
